

WDBS DARTMOUTH BROADCASTING SYSTEM

49 ROBINSON HALL · HANOVER · NEW HAMPSHIRE · TELEPHONE 30

December 5, 1949

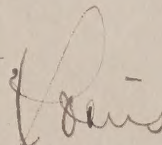

Dear Pat:

Speaking for the twelve of us who spent Friday evening at WCSR, I want to thank you and your whole staff for both the invitation and the fine time we had at Smith. You are all part of a great organization, and realizing that this is not even WCSR's second year of operation, it can be said without a moment's hesitancy that the radio station will within a short time become the most popular and important activities on the Smith campus.

I have been talking to the directorate about a February "WCSR-at-Dartmouth" weekend, and they are entirely enthusiastic. I would suggest either the seventeenth or the twenty-fourth -- preferably the latter. The reason for this is that on Friday we have two sponsored shows and a remote from the Inn. Now, if you could come up during one of the earlier Fridays with representatives from the script, production, and engineering departments, we can check you out on how these programs are run -- that includes talking to the sponsors and working out with them your own ideas about their programs. This should make your whole evening's broadcast easier, and in as much as it would be apt to be less hectic, you would be able to take in more of whatever experience WDBS has to offer. All this should make it more enjoyable, too.

Think it over and let us know what suggestions you have. In closing, I can't help but tell you again that we all very much enjoyed last Friday's broadcast. Although six of us had what might be termed an uneventful trip back to Hanover, we were very sorry it had to be undertaken.

Sincerely,

Louis deRochemont III

Pat Butler
